Introduction

A system-level CS undergrad passionate about building AI-augmented, real-world tools. I've engineered secure shell systems and productivity-enhancing agents that combine performance, innovation, and ownership. Ready to thrive in fast-paced bootcamps like jTU and contribute as a next-gen builder.

PROJECTS

SNS-v.0

- Technologies Used: C#, .NET
- Developed a network based application that works on a client server protocol, GUI based remote-shell. Executed secure command transmission and shell access across Windows systems.

Stratos

- Technologies Used: Python, ollama private AI, TTS, STT libraries.
- An AI-powered system that automates tasks via voice + text inputs through command-line interactions. Automates PC workflows via AI → productivity booster.

Undergraduate-Job-Portal

- Technologies Used: MERN Stack.
- Role: Implemented speech recognition, video recording in backend and idealized additional features.
- A job portal which helps students overcome job discovery & skill mismatch.

ACHIEVEMENTS

- Achieved **TryHackMe**: Top 1% | **Codeforces**: 867 and rising.
- Solved 200+ DSA problems including dynamic programming, graph algorithms, and recursion.
- Achieved 5th place in international FOSS CTF.

CERTIFICATIONS

- NPTEL** - Computer Network and Internet Protocol.
- NPTEL**-Theory of Computation.
- Roadmap to ethical hacking from Parul University.
- Participation in International Cybersecurity Conference-Red Team Security Summit-2023, Kochi,Kerala.
- Database and SQL from Infosys.

SKILLS

Proficient: Python • Java • DSA • Linux • Windows • C++ • Networking • Cybersecurity

Competent: DBMS • OS

Familiar: MERN stack • .NET application development

EDUCATION

PARUL UNIVERSITY

B.TECH IN COMPUTER SCIENCE AND ENGG.
Grad. 2026 | **CGPA. 7.71**

NARAYANA COLLEGE ,Hyderabad

INTERMEDIATE WITH PCM
Grad. 2022 | **Perc. 83.7%**

TIMES PUBLIC SCHOOL ,Udgir

Grad. 2020 | **Perc. 90.80%**

LEADERSHIP ROLES

- Lead a team in hackvengers hackathon.
- Team leader in FOSS CTF

LANGUAGES KNOWN AND HOBBIES & INTERESTS:

- Fluent: English ,Hindi, Marathi.
- Conversational Proficiency: Telugu, Gujarati, Kannada

- Exploring emerging AI applications and technologies
- Keeping myself updated about new technologies, vulnerabilities, incidents about cybersecurity.
- Learning new stuff like system level programming in C# and C++, win32 programming.
